

Cardboard Shredders

Optimax® Cardboard Shredders create void fill from waste cardboard

- > Optimax® Shredders turn small quantities of old cardboard into lots of packaging material within a short time.
- > Optimax® Shredders create either Void Fill or Protective Matting Material which reduces packaging costs and is ecologically beneficial.
- > Operator-friendly feeding of cartons with punched measuring scale for precise packaging units.
- > Various sizes of cardboard boxes are automatically processed and tailored in a single step.
- > Standard dust extraction device built into most models.

ENVIRONMENTALLY RESPONSIBLE ALTERNATIVE

Optimax® shredders contribute cost-effectively to reducing carbon footprint and demonstrating eco-friendly credentials

Optimax® puts operator safety first

Only the Optimax® range of shredders comply with BS EN ISO 13857:2008

Optimax® is the first manufacturer to offer compliance with BS EN ISO 13857:2008 across its entire range of cardboard shredders.

This standard is the UK implementation of EN ISO 13857:2008 and stipulates that a 20mm-high opening to a blade mechanism must incorporate a minimum safety distance of 120mm.

As market leader in product innovation and operator safety, Optimax has exceeded these requirements to provide a safety distance of 140mm.

CP333NTI
Optimax Table Top Cardboard Shredder
Produces void fill or protective matting material

new

CP316S2-I
Optimax Single Phase Cardboard Shredder
Produces void fill or protective matting material

CP316S24MM
Optimax Single Phase Cardboard Shredder
Produces 4mm-wide void fill strip

CP320S2-I
Optimax Single Phase Cardboard Shredder
Produces void fill or protective matting material

CP320S24MM
Optimax Single Phase Cardboard Shredder
Produces 4mm-wide void fill strip

CP422S2-3PH
Optimax Single Phase Cardboard Shredder
Produces void fill or protective matting material

CP422S2-240V
Single phase with three phase inverter
Produces void fill or protective matting material

CP422S24MM-3PH
Optimax Three Phase Cardboard Shredder
Produces 4mm-wide void fill strip

CP428S2
Optimax Three Phase Cardboard Shredder
Produces void fill or protective matting material

CP428S24MM
Optimax Three Phase Cardboard Shredder
Produces 4mm-wide void fill strip

CP430S2-3PH
Optimax Three Phase Cardboard Shredder
Produces void fill or protective matting material

new Larger motor provides 33% power increase over the CP428S2

CP424C2-240V
Optimax Single Phase Cardboard Chipper
Produces chipped void fill or pet and equestrian bedding material

new

SFP100-1K
Dust Extraction Unit Single Phase

SFP200-1V
Dust Extraction Unit Three Phase
